9/3/78

Dear Jessica,

When I came accross this (only) in an unpublished FBI Jack Ruby files I was reminded of your interest in getting the FBI's files on you.

You asked me about this at the memorial services for Cliff Durr.

The obliteration is by the FBI.

The 7d in the margin is the FOIA exemption claimed, for a confidential source.

They use this to include taps and bugs, although more often in conjunction with other exemption claims.

If I were to make a guess it would be that a person was the source, a person whose was present when you made the call about Bob's party.

Or doesn't it have to be much of a party to have made the FBI files?

Besy wishes,
